

Atento Reports Fiscal 2021 First Quarter Results

*Commercial wins, revenue growth and efficiencies led to record positive operating cash flow;
Revenues in hard currencies already at 25% of total, on strong US growth;
On track to delivering guidance for FY 2021*

NEW YORK, May 5, 2021 – Atento S.A. (NYSE: ATTO) (“Atento” or the “Company”), the largest provider of customer relationship management and business-process outsourcing services in Latin America, and among the top five providers globally, today announced its first quarter operating and financial results for the period ending March 31, 2021. All comparisons in this announcement are year-over-year (YoY) and in constant-currency (CCY), unless otherwise noted.

A strong start for 2021

- Q1 revenues grew 8.0% on a CCY basis, with consistent growth in Multisector across all regions, driven by Next Generation Services
- Multisector revenues increased 11.0%, reaching 68.1% of total revenues, 0.7pp higher YoY
- TEF resuming growth following new program wins
- US revenues increased 52.0%, with EBITDA increasing 91% YoY
- Consolidated EBITDA expanded 6.7% to \$39.1 million YoY, with corresponding margin of 10.5%, in line with management expectations and reflecting historical seasonality for Q1
- Continued solid improvement in Cash Flow: operating cashflow +\$11.9M vs Q1 2020, totaling \$5.5M in Q1 2021, the first positive number for a first quarter since 2017

Building a track record in operating efficiency

- First stage implemented in 2019 and 2020 focused on structural opex, with \$60 million in annualized savings carried to 2021
- Second stage to focus on contract profitability, with annualized savings expected to reach additional \$25 million

Debt refinancing resolved uncertainty related to capital structure

- Successfully concluded debt refinancing in Q1 2021, extending average debt life to 4.3 years
- Healthy balance sheet with solid cash position of \$176.1 million
- Net debt reduction of 6.9% versus Q1 2020, with leverage at 3.3x
- USD debt hedged for Principal and Coupons

Avenues for Growth

- Remain focused on expanding NGS for multisector and US business, aiming at increasing revenue and EBITDA in hard currencies.

Message from the CEO and CFO

Atento delivered solid Q1 2021 results, on the back of strong Next Generation services sales throughout the regions in which we operate, especially in the US and EMEA. Our revenues in the quarter went up 8.0% YoY on a constant currency basis, while EBITDA growth was 6.7%, with a 10.5% margin, despite implementation costs of new projects whose revenues will be fully accounted for from Q2 2021 onward, and wage adjustments in Brazil. We are pleased to report that, for the first time since 2017, we generated positive operating cash flow in a first quarter.

The implementation of our Three Horizon Plan in 2019 successfully allowed us to convert our commercial pipeline, consistently increasing our sales as measured by Total Annual Value: new wins in this quarter surpassed \$80 million, 4 times more than what we sold in the same period in 2018, and 50% more than Q1 2020. More than half of these revenues came from the U.S. We are proud to report that one of these wins is a contract with the State of Maryland where we assumed a front-line position in the fight against COVID by launching Atento's Equitable Vaccination Distribution and Scheduling system using the Atento@home remote work solution, implemented in just two weeks.

A year ago, we said we wanted to serve the right clients, with the right services, and that's what we have been delivering. We have been able to attract born-digital and tech brands that, along with media, now comprise more than 10% of our total revenues. When we add US and EMEA revenues hard currencies account for 25% of total revenues, mitigating the impact of foreign exchange variations from our Latin American businesses. More importantly, these clients demand more sophisticated services, allowing for better margins.

We are seeing opportunities to extract additional operating efficiencies throughout the year. After accomplishing annualized cost savings of \$85 million in 2020, of which \$60 million is being carried forward to 2021, we started the year focusing on contract profitability. There are important factors that impact the profitability of each program, and we have a delivery group currently implementing initiatives to best balance these factors so that we can improve our returns while improving service range and quality to our clients.

As we said in our 2019 Investor Day, improving the capital structure of Atento is a key element for generating value to shareholders. This quarter we successfully completed our debt refinancing, issuing new \$500 million Senior Secured Notes that mature in February 2026, extending the average life of our debt to 4.3 years from 1.5 years and paving the way to improve our capital structure. Fulfilling the commitment made to investors, the new notes are protected by hedging instruments consisting mainly of cross-currency swaps in BRL, PEN and Euro, with the coupons hedged through maturity, while the principal is hedged for a period of 3 years.

The demand for our CX services remains strong and Atento is more than prepared to serve this demand. The combination of top line growth, expansion of revenues in hard currencies and additional operational efficiencies coupled with the success of our debt refinancing strengthens our confidence in achieving our guidance for EBITDA margins and leverage targets for 2021 and 2022.

First Quarter Consolidated Financial Results

Atento's revenue increased 8.0% YoY in Q1 2021, to \$370.6 million, mainly driven by an 11.0% growth in Multisector sales, which expanded across all regions, reflecting the company's effort to continue improving revenue mix into fast-growing and more profitable verticals. Media, Tech and Born-digital already represent more than 10% of total revenues, with revenues in hard currencies already totaling 25% of total revenues.

Sales of Atento@home solutions have also increased. We are now serving more than 300 clients with this solution while maintaining our employees safely working from home, complying with all the security standards and reinforcing the culture of taking care of our people.

Telefónica revenues are stabilizing, with an increase of 2.2% YoY, mainly from higher volumes in Brazil and EMEA. It is worth highlighting that the initial impacts from the pandemic were already felt mid-March 2020, with the closing of centers that directly impacted TEF revenues for that period. We continue to improve our relationship with Telefónica and remain the leader in the share of wallet for CX services.

Multisector revenues reached 68.1% of total sales, up from 67.5% in Q1 2020 and from 62.4% two years ago, as a result of higher sales of Next Generation Services, such as high-value voice, integrated multichannel and automated back-office services, demand for which is even stronger with the change in consumer habits. NGS represented 30% of our new sales in this quarter.

Consolidated EBITDA expanded 6.7% to \$39.1 million YoY, while the corresponding margin reached 10.5%, diminishing 40 basis point year-over-year. This slight decline reflects an impact of \$6.6M from wage adjustments in Brazil, which we expect to recover as we pass it through to prices in the next quarters and of \$1.3M implementation costs of new client programs in Brazil and the US. This EBITDA margin was in line with management expectations and reflects the historical first quarter seasonality.

Atento continued to maintain a comfortable level of financial liquidity, with net debt decreasing 6.9% to \$525.4 million YoY. Operating Cash Flow was R\$5.5 million in the quarter, the first positive OCF we registered in a Q1 since 2017. Free cash flow was \$16.1M negative, the same level registered in Q1 2020, and includes around \$10 million of one-time costs related to the debt refinancing and \$11.7 million of interest payment net of hedge gains.

Revenue in Brazil, Atento's flagship operation, increased 6.7% during the quarter to \$148.9 million, fueled by 5.6% growth in multisector, due to Next Generation Services expansion with Born-Digital companies. Telefonica revenue went up by 10.5%, reflecting the partial impact of the new program implemented in March and also the weaker Q1 2020 that was impacted by the pandemic in the last two weeks of March 2020. Multisector clients acquired in the last twelve months came mainly from the Healthcare, Media and Born-Digital sectors.

EBITDA was impacted by \$6.6 million in wage adjustments, which we expect will be largely passed on to prices in the next couple of months, and \$1.0 million of implementation costs related to new client programs, thus decreasing 9.5% YoY and totaling R\$17.9 million. EBITDA margin, in turn, diminished 220 basis points to 12.0%. Excluding these impacts, EBITDA margin would have been 17.1%.

Americas Revenue Mix	2021  69.2% TEF ■ Multisector		2020  65.0% TEF ■ Multisector	

In the Americas, the Company recorded an increase in revenues of 8.6% YoY to \$154.1 million, with Multisector sales increasing 15.8% YoY, mainly in Central America, Colombia and the US, where we won a new contract with the State of Maryland to support Covid-19 vaccine appointments and logistics. Telefónica revenues decreased 4.9% YoY, with the main impact coming from Peru as this country has been under a more severe lockdown to control the pandemic when compared to other countries.

When compared to Q1 2020, US revenues went up 52%, while EBITDA increased 91%, with EBITDA Margin reaching 15.8%, up by 3.2 percentage points. EBITDA was impacted by a \$0.3 million implementation related cost for a new client program, implying normalized profitability closer to 17%. Our US clients already represent 7% of Atento's total consolidated revenues, in line with our strategy of strengthening our revenues in hard currencies and expanding our presence in the American market.

The region's Adjusted EBITDA was \$17.1 million, increasing 25.5% YoY mainly due to higher revenue from the US coupled with improved operational efficiencies. EBITDA margin stood at 11.1%, an increase of 1.8 percentage points.

EMEA Region

EMEA Revenue Mix	2021  50.7% TEF ■ Multisector		2020  48.1% TEF ■ Multisector	

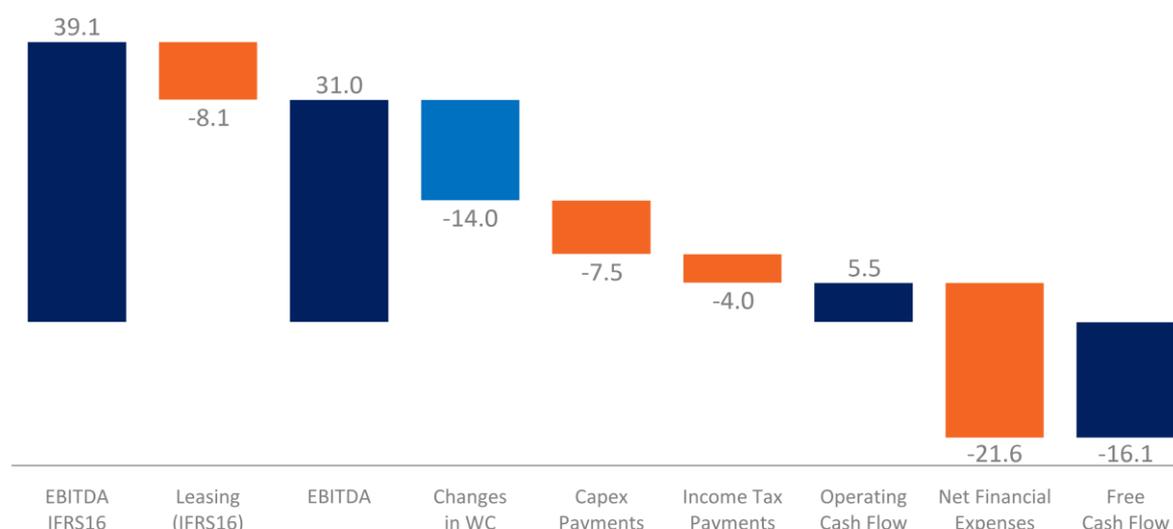

In EMEA, a 15.8% increase in Multisector sales, driven by Next Generation Services, coupled with a 4.3% increase in TEF revenues, led to a 9.8% increase in revenues during the quarter, totaling \$69.1 million.

EMEA's Adjusted EBITDA more than doubled to \$8.5 million, while the EBITDA margin expanded 580 basis points to 12.3%. The region's profitability improved as a result of better operational efficiencies coupled with revenue growth.

Indirect Cash Flow View – Q1 2021 (\$ in millions)

Despite historical seasonality for a first quarter, Atento closed the period with \$5.5M of Operating Cash Flow, an \$11.9 million improvement YOY because of a solid EBITDA coming from increased revenues and operational efficiencies. This was the first positive OCF in a first quarter since 2017, attesting the improvement in the Company's financial discipline.

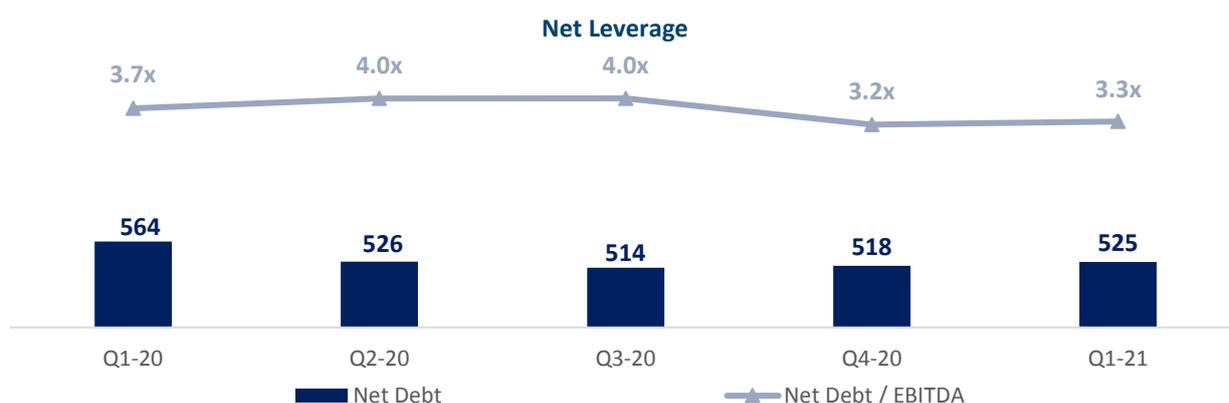

Free Cash Flow was negative \$16.1 million, as one-time impact of approximately \$10 million costs related to the debt refinancing (call premium to redeem previous outstanding bond and other issuance costs such as underwriter fees, lawyers and auditors) led to net financial expenses of \$21.6 million. It is important to highlight that Q1 and Q3 are impacted by bond interest payment, which amounted to \$11.7 million from interest payments net of hedge gains in this quarter.

Cash Capex was 2% of revenues in Q1 2021, compared to 3% in Q1 2020. While Q1 2021's number was below guidance for the year, we believe this is a phasing effect as we have been deploying new projects, especially growth related, in line with our expectations. Therefore, we expect cash capex as a percentage of revenues to be aligned with our guidance of 4-4.5% for the entire year.

(1) Notes are protected by certain hedging instruments, with the coupons hedged through maturity, while the principal is hedged for a period of 3 years. The instruments consist mainly of cross-currency swaps in BRL, PEN and Euro.

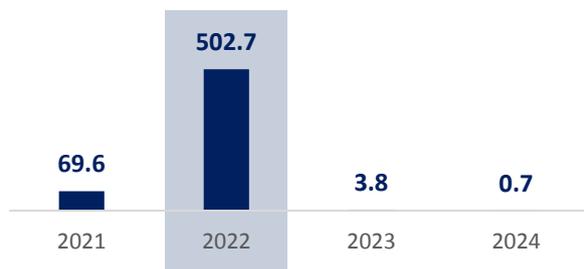

On February 19, 2021, Atento successfully completed its \$500M bond refinancing. The new \$500 million Senior Secured Notes matures on February 10, 2026 and will pay interest at a rate of 8.0% per annum. With this transaction, the Company’s average debt life increased from 1.5 years to 4.3 years.

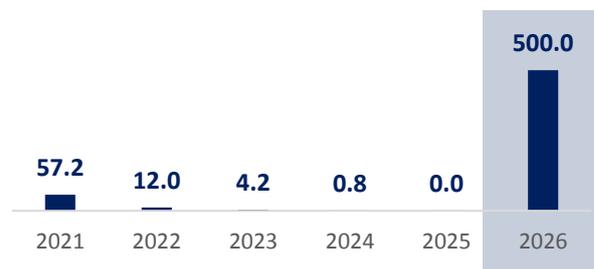

Fulfilling the commitment made to investors in the refinancing process, the new notes are protected by certain hedging instruments, with the coupons hedged through maturity, while the principal is hedged for a period of 3 years. The instruments consist mainly of cross-currency swaps in BRL, PEN and Euro. As a reference, the BRL cost for principal and coupon is approximately 180% of CDI, equivalent to circa 5.0% p.a. with the current CDI, compared to 7% p.a. cost of the previous bond for coupons only.

Debt Payment Schedule

As of December 31, 2020

As of March 31, 2021

At end of Q1 2021, gross debt was \$701.5 million, which included \$130.9 million in leasing obligations under IFRS 16. Atento finished the quarter with cash and cash equivalents of \$176.1 million, a YoY increase of \$13.3 million (+8.2%). At the end of March, we had approximately \$80 million in available revolving credit facilities, of which \$50 million were drawn down. Net debt, in turn, decreased 6.9% when compared to Q1 2020.

(*) We define non-recurring items as items that are limited in number, clearly identifiable, unusual, are unlikely to be repeated in the near future in the ordinary course of business and that have a material impact on the consolidated results of operations. Non-recurring items can be summarized as demonstrated below:

- Amortization of acquisition related to intangible assets represents the amortization expense of customer base, recorded as intangible assets. This customer base represents the fair value (within the business combination involving the acquisition of control of Atento Group) of the intangible assets arising from service agreements (tacit or explicitly formulated in contracts) with Telefónica Group and with other customers.
- Since April 1, 2015, the Company designated the foreign currency risk on certain of its subsidiaries as net investment hedges using financial instruments as the hedging items. Consequently, any gain or loss on the hedging instrument, related to the effective portion of the hedge is recognized in other comprehensive income (equity) as from that date. The gains or losses related to the ineffective portion are recognized in the statements of operations and for comparability, and those adjustments are added back to calculate Adjusted Earnings.

(**) Adjusted Earnings per share is calculated based on weighted average number of ordinary shares outstanding of 14,159,237 and 14,090,948 for the three months ended March 31, 2020 and 2021, respectively.

(***) Adjusted Earnings per share in the reverse split basis is calculated by applying the ratio of conversion of 5.027090466672970 used in the reverse split into the previous weighted average number of ordinary shares outstanding

(1) In considering our financial condition, our management analyzes Net debt with third parties, which is defined as total debt less cash and cash equivalents.

Net debt with third parties is not a measure defined by IFRS and it has limitations as an analytical tool. Net debt with third parties is neither a measure defined by or presented in accordance with IFRS nor a measure of financial performance and should not be considered in isolation or as an alternative financial measure determined in accordance with IFRS. Net debt is not necessarily comparable to similarly titled measures used by other companies.

(2) EBITDA LTM (Last Twelve Months)

(3) Considers the impact on March 31, 2021 of the application of IFRS16 (former operating leases not related to short-term or low-value leases are now shown as debt) of \$130.9 million and \$9.4 million of other financial leases.
