Message from the CEO and CFO

It is gratifying to report such strong Q3 2021 results. We maintained a steady and profitable growth trajectory, delivering Atento's best third-quarter EBITDA and Free Cash Flow since initiating our Three Horizon Plan in early 2019. Further, solid revenue growth and a still expanding EBITDA margin resulted in record Free Cash Flow in a Q3 perspective.

As we further penetrated the US market under the third phase of our growth plan, revenues there rose to \$29.2 million in Q3 and drove 9M 2021 40% higher to \$84.1 million. The increase led Atento's nine-month hard currency revenue and EBITDA to grow 21% and 125%, respectively. Also, during the first nine months, the total annual value of our US Nearshore and EMEA sales increased 77%, driving a 34% increase on a consolidated basis. We added 14 new clients as well, with revenue from fast-growing media, tech and born-digital clients now representing more than 11% of Atento's consolidated revenue, an increase of nearly three percentage points over last year's nine-month period.

We are also exceptionally proud of our IT team's response to last month's cyberattack against our Brazil operations. As always, clients were our immediate priority and every decision taken at the time was to protect them. Early detection, robust protocols and a rapid response enabled us to effectively isolate and ringfence the attack, allowing Atento to resume the majority of affected services within two weeks while also preventing the attack from reaching client systems.

Following the recent appointment of an ESG director, we are proceeding with a robust sustainability strategy and plan to achieve carbon neutrality by 2030 while continuing to lead our sector on the social front. Over 32% of Atento's energy supply now comes from renewable sources, while we reduced water consumption by 26% between 2019 and 2020. And as we move more of our operations to the Cloud and transition additional employees to the Atento@Home model, who now number over 80,000, we expect to accelerate Atento's progress toward carbon neutrality. Diversity & Inclusion remains at the heart of our company's culture. We are proud to say that approximately 64% of our colleagues and 53% of Atento's managers are women. Fifty-five percent of our employees are under the age of 30, and for many of them a position at Atento is their first formal job, giving them access to training and benefits such as healthcare.

Looking ahead to the remainder of the year, we continue tracking well to full-year guidance, with nine-month revenue growth exceeding guidance while Atento's EBITDA margin and leverage are already within our target range. Our strong performance year-to-date also reinforces our confidence in meeting the ambitious 2022 performance targets we set in 2019. The renewed operational and financial strength of our company, combined with our expanding talent base and portfolio of innovative technological solutions, mean Atento is well positioned to capitalize on accelerating demand for high-value CX among companies around the world that continue to rapidly digitize their businesses.

Third Quarter Consolidated Financial Results

Atento’s revenue increased 4.1% to \$368.6 million in Q3 2021, driven by US multisector growth and an increase in Telefónica revenue in Brazil. For 9M 2021, hard currencies reached 25% of total revenues.

Telefónica revenues rose 5.5%, reflecting the full impact of a client program won in Brazil in Q1 as well as higher volumes in the majority of South America countries. At the end of the quarter, Telefónica revenues had neared 2019 levels and were higher than pre-pandemic levels.

Multisector revenues grew 3.4% in the quarter, mainly in the Americas, where sales were boosted by a strong 40.1% increase in Q3 2021 in US revenues. In 9M 2021, sales in the public services sector continued to accelerate along with those in fast-growing verticals such as born-digital, technology and media, which in the aggregate already represent 11.2% of total revenues compared to 8.3% a year ago. Also, in the nine months, Multisector revenues reached 67.5% of total sales.

Consolidated EBITDA increased 14.7% to \$51.3 million in Q3 2021, the highest “Q3” since the implementation of the Three Horizon plan, while the corresponding margin expanded 120 basis points to 13.9%, also the highest Q3 level during this period. In 9M 2021, the EBITDA margin was 12.6%, rising to within the FY guidance range and evidencing the effectiveness of the Company’s turnaround under the growth plan. The margin expansion reflects major client wins in the US and Brazil, a greater proportion of next generation services in the revenue mix, and the cost reduction program that has been successfully implemented since 2020. In addition, growing business with US clients increased EBITDA in hard currency to \$40.2 million in 9M 2021, representing 28% of total EBITDA in this period.

Recurring EPS was \$0.14 in Q3, compared to negative \$0.09 in the same period last year. Reported EPS, which was -\$0.83 for the quarter, was negatively impacted by \$16.7 million in non-cash mark-to-market adjustments to hedging instruments.

Atento continued to maintain a comfortable level of financial liquidity at the end of the quarter and, as EBITDA continued to expand, net leverage decreased to 2.8x, within the Company’s FY guidance range. Operational FCF was also a record for Q3 since 2019, reaching \$25.9 million, with FCF at \$6.7 million, another record during this period. FCF was positive despite bond interest payments made during the quarter. FCF for the 9M 2021 was negative \$30.4 million, mainly due to \$16.1 million in tax payments that had been postponed from 2020 under government pandemic relief programs and to \$10.9 million in one-off expenses related to debt refinancings. Excluding these effects and growth-related expenses (working capital and capex), run-rate FCF was approximately \$13.6 million in 9M 2021.

Atento’s average headcount was 142,085 employees in 9M 2021, with revenue per employee increasing 2.6% on 9.7% revenue growth.

Brazil Revenue Mix	9M 2021			9M 2020		

Revenue in Brazil, Atento's flagship operation, increased 2.0% during the quarter to \$152.4 million, fueled by 19.3% growth in Telefónica sales that reflect the full impact of a client program won in Q1 2021. Multisector revenues decreased 3.0%, as a result of the Company's focus on maintaining high profitability contracts and forgoing renewals of low profitability contracts in order to continue expanding the business' EBITDA margin.

Brazil's EBITDA margin increased 150 bps and also 220 bps sequentially to 17.7% from 15.5% in the previous quarter. Coupled with the revenue increase, EBITDA grew 11.3% to \$26.9 million.

Americas Revenue Mix	9M 2021			9M 2020		

In the Americas, Atento's revenues increased 8.8% to \$157.8 million, with Multisector sales increasing 9.8%, mainly in the US. Telefónica revenues increased 8.1%, with most of the increase generated across South American countries, such as Colombia, Peru and Argentina.

The region's Adjusted EBITDA was \$19.3 million in the quarter, up 21.9%, mainly due to higher EBITDA in the US coupled with the cost reduction program implemented since 2020. The EBITDA margin expanded 110 bps to 12.2%.

Consistent with Atento's strategy to expand its presence in the US market and increase exposure to hard currencies, third quarter EBITDA from the US reached \$5.8 million, while the EBITDA margin expanded to 20.0%. In 9M 2021, US revenues grew 40.5% and EBITDA increased 117.9%. The Company's strong US performance resulted in hard currency sales growing

to 25% of total revenue during this period, while EBITDA generation of \$40.2 million accounted for 28% of consolidated EBITDA.

EMEA Revenue Mix	9M 2021			9M 2020		

In EMEA, a 6.6% increase in Multisector sales was driven by utilities, transportation, a recovery in tourism as well as by government services related to providing information to citizens during the pandemic. However, lower volumes during the third quarter led to a 9.3% decrease in Telefónica revenues, resulting in a 2.6% decrease in the region’s revenues, which totaled \$59.4 million.

EMEA’s Adjusted EBITDA increased 1.9% to \$7.5 million, while the corresponding margin expanded 0.5 bps to 12.6%, a result of improved operational efficiencies.

Operational FCF was a Q3 record since 2019, reaching \$25.9 million, with FCF at \$6.7 million, also a record for this period. The positive FCF was achieved despite being a quarter in which bond interest payments were made.

FCF for the 9M 2021 was negative \$30.4 million, mainly due to \$16.1 million in tax payments that had been postponed from 2020 under government pandemic relief programs and to \$10.9 million in one-off expenses related to debt refinancings. Excluding these one-offs and growth-related expenses (working capital and capex), run-rate FCF was approximately \$13.6 million in 9M 2021.

Cash Capex was 3.2% of revenues in 9M 2021, compared to 2.6% in the same period of 2020, mainly reflecting investments in IT to support an acceleration in the Company's growth.

(*) We define non-recurring items as items that are limited in number, clearly identifiable, unusual, are unlikely to be repeated in the near future in the ordinary course of business and that have a material impact on the consolidated results of operations. Non-recurring items can be summarized as demonstrated below:

- Amortization of acquisition related to intangible assets represents the amortization expense of customer base, recorded as intangible assets. This customer base represents the fair value (within the business combination involving the acquisition of control of Atento Group) of the intangible assets arising from service agreements (tacit or explicitly formulated in contracts) with Telefónica Group and with other customers.
- The Company designated the foreign currency risk on certain of its subsidiaries as net investment hedges using financial instruments as the hedging items. Consequently, any gain or loss on the hedging instrument, related to the effective portion of the hedge is recognized in other comprehensive income (equity) as from that date. The gains or losses related to the ineffective portion are recognized in the statements of operations and for comparability, and those adjustments are added back to calculate Adjusted Earnings.

(**) Adjusted Earnings per share is calculated based on weighted average number of ordinary shares outstanding of 14,040,360 and 14,080,509 for the three months ended September 30, 2020 and 2021, respectively.

(***) Adjusted Earnings per share in the reverse split basis is calculated by applying the ratio of conversion of 5.027090466672970 used in the reverse split into the previous weighted average number of ordinary shares outstanding

(1) In considering our financial condition, our management analyzes Net debt with third parties, which is defined as total debt less cash and cash equivalents.

Net debt with third parties is not a measure defined by IFRS and it has limitations as an analytical tool. Net debt with third parties is neither a measure defined by or presented in accordance with IFRS nor a measure of financial performance and should not be considered in isolation or as an alternative financial measure determined in accordance with IFRS. Net debt is not necessarily comparable to similarly titled measures used by other companies.

(2) EBITDA LTM (Last Twelve Months)

(3) Considers the impact on September 30, 2020 of the application of IFRS16 of \$141.3 million and \$X.X million of other financial leases.
